

This is the seventh year in a row in which the Agency for Electronic Communications and Postal Services organizes the International Conference ***“Regulatory activities in the telecommunications sector”***. The VII Conference will be held on 28 and 29 September 2009 in the town of Budva, within the XVI Festival of Information Technology Achievements – INFOFEST 2009.

Having considered current global trends and their impact on electronic communications sector, the Organizer has decided that this year’s Conference should be held under the title “The Achieved Level of Regulation and Analysis of Electronic Communications Market”.

We would like to remind you that so far the Agency for Electronic Communications and Postal Services has successfully organized six International Conferences. At the previous Conferences, we had notable and prominent presence and engagement of our colleagues from NRAs, ministries, telecommunications operators, as well as the representatives of the ITU and European Commission, experts from competent institutions from the EU Member States and from scientific and education institutions – universities from the countries in the Region. The first Conference was used for getting acquainted with the overall situation in telecommunications markets of some participating countries, and undiminished attendance and engagement were recorded in all subsequent Conferences in the years to come. The major topics of the previous Conferences were as follows: ***“Regulatory Activities in Telecommunications Sector”, “The Methods of Universal Service Implementation”, “Regulatory Activities in Telecommunications Service Pricing”, “Key Regulatory Challenges for Liberalization of Telecommunications Markets in the SEE”, “Necessary Elements for Introducing Competition in Telecommunications,” and “Regulation and Liberalized Market.”***

This year’s Conference will be held in the form of two panel discussions during which the following issues will be discussed: The state in the electronic communications market in the countries from the Region, with a special focus on the most significant activities that were performed between the two conferences; Joint use of infrastructure; Rights and protection of the users of electronic communications services; Provision of safe Information Society and child online protection; Influence of global economic crises on further sector development and Modalities of cooperation in the electronic communications sector – the road towards Euro Atlantic integrations.

Therefore, it is our pleasure to invite you to take part in this event in the context of your interests and contribute to successful organization of the forthcoming Conference.

It would be useful if you could inform us about the topic you will be dealing with in your presentation.

VENUE AND DATES OF THE CONFERENCE

The INFOFEST 2009 will be held in the hotel complex “Avala – Mogren”, in the immediate vicinity of the Old Town. The venue of the Conference will be “Mogren lounge”.

Two sessions will be held at the Conference:

1. Monday, 28.09.2009, time 10:00 - 14:00 hrs.
2. Tuesday, 29.09.2009, time 10:00 - 14:00 hrs.

PARTICIPATION CONDITIONS

Offered arrangements for participants

The Table below contains the arrangement rates for the whole period of the INFOFEST and for the first half of INFOFEST when the Conference is held. All arrangement rates include accommodation in indicated hotels and period (arrival-departure) starting with the night-stay (the first service on arrival date) and ending with breakfast (the last service on departure day); these rates also include sojourn fee, insurance and tax. **The registration fee is also included, which implies all rights related to participation in the INFOFEST.** The accommodation is in single and double rooms. **The indicated rates refer to one person only.**
